A. E. WORLEY, Prop. No. 141.

MISS MONIE BOWEY, No. 38 Perry Street, DETROIT, MICHIGAN.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Bowey. As a medicine for all women in every trying period of their lives can you think of a better medicine for yourself, your sister, your daughter or your mother? Can you think of a more acceptable present to give your friend

than a bottle of this medicine which will bring her health and happiness? You are suffering? Your duty is to rid yourself of this pain. If your daughter, mother, sister or friend is sick and in need of relief, your duty is equally great to them. Many women, now well, owe their lives to friends who brought them Wine of Cardui.

Wine of Cardui is adapted to women at any age in any walk of life. For the working woman it gives her strength for her tasks and better treatment than a doctor for very small cost.

Your druggist will sell you a \$1.00 bottle of Wine of Cardui. Secure the medicine today. Take it in the privacy of your home. Relief will come to you as surely as you take it.

A million suffering women have found relief in Wine of Cardui.

WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. Miss Bowey's painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

MONIE BOWEY.

ONE LEVEE GIVES WAY STATUS IS UNCHANGED

The St. Francis Is Now at Mercy of the Waters.

GLOOM AT MEMPHIS.

Numbers of Residences and Business Houses Have Been Flooded and Many of the People Had to Hastily Depart.

Memphis, March 17.—The St. Francis levee gave away late Monday afternoon at Price's Landing, Ark., twenty miles north of this city, and the waters of the Mississippi river are rushing through a three-quarter of a mile crevasse in the embankment with a roar that can be heard for miles. This is the first break that has been made in the vicinity of Memphis.

Sunday night the water was on a level with the crest of the levee at Hollybush, and the present rise carried it over a foot higher, sweeping away the temporary embankments at Price and tearing the levee itself from its foundation giving a new channel for the flood. The break was of such extent that the engineers realized the hopelessness of attempting to repair the breach, and it was abandoned after the ends of the levee at either side of the crevasse had been riveted with sand sacks and stones to prevent further cutting away of the embankment.

In the city the situation is the worst that has so far been reached. In both North and South Memphis many homes and business houses have been flooded and families driven out. Street car traffic has practically been suspended in North Memphis, one bridge having been rendered unsafe while others are threatened.

The tracks of the Illinois Central along Wolf river are under water, and trains are being run through the flooded areas until tracks can be raised above the water.

Appeals are pouring into the city from all directions for aid by those who have taken refuge on high points along the river and who are now surrounded by water. All local packets have gone strictly into the rescue business, but their capacity is completely overtaxed and they are unable to respond to all demands that are received. Cargoes of refugees and their property have been discharged at the wharf here and there are several hundred destitute persons in the city who are being cared for by charity.

ANOTHER BREAK:

It is Several Hundred Feet Wide, but Near the Gulf.

New Orleans, March 17.—Another ideal day enabled much work to be done in strengthening the levees Monday, and the line in the city and along the river is reported in good condition. The gauge Monday night reads 19.2 feet, which is a tenth below Sunday night, but the weather bureau says that the rise at Memphis is yet to come and the twenty-one foot stage will reach here. The Bougere levee in Concordia parish is the northern port of the state, close to the Texas and Pacific tracks, is reported weak, but General Manager Thorne is up the road and will put an army of men there. The first real break is reported in the Buras district, some sixty or seventy miles below the city. It is said to be several hundred feet wide, but can do no harm, as the territory is close to the gulf, and few interests will be damaged, as the water will run into the Mexican sea.

Embankments Breaks.

Natchez, Miss., March 17.—The fifteen-foot embankment of the Texas and Pacific railroad at Bougere, thirty-five miles below Vidalia, broke and a gap two miles in length was cut by the river in a few hours. This gap was followed by a break in the lower Bougere levee, which lapped the railroad embankment on the south end, and the water is running into and filling Bougere swamp.

Secretary Shaw Spoke.

Beaumont, March 17.—At a reception given to Secretary of the Treasury Shaw by the business men of this city, the secretary made a brief speech in which he laid great stress on the necessity for inland harbors on the gulf coast. He also advocated liberal harbor appropriations and the great necessity for a ship subsidy to build up South American trade.

Addresses Delivered.

Lampasas, Tex., March 17.—At the state convention of the Young Men's Christian association Monday the question drawn was conducted by L. E. Jones of Beaumont. George McDill of Omaha, Neb., international railroad secretary for the southwest spoke on railroad work. W. J. Parker of Chicago, dwelt on "The Boys as a Factor in the Forward Movement."

As to Poll Tax Frauds.

Austin, March 17.—District Judge Penn delivered to the grand jury a strong charge on the matter of poll tax funds, it being claimed that large blocks of receipts have been taken out to corrupt the approaching city election.

MISSISSIPPI RIVER AT NEW ORLEANS STATUS IS UNCHANGED

Mississippi River at New Orleans on Tuesday Stationary.

PATROL TRAIN GONE.

The Mississippi Valley Railway Company Started Out One From the Pelican State Metropolis to Baton Rouge.

New Orleans, March 17.—The river here continues stationary to-day.

The morning reading was 19.2 feet, from which there has been practically no variation since Saturday last. The weather is clear. City embankments are constantly being improved and a thorough inspection of the front from Southport to the barracks shows no points of danger. News of the breaks of the levee above St. Francis and at Bougere caused some disappointment, since the effect is likely to be a prolongation of the period of high water here. People who returned from the break below Pointe à la Hache say the break there is of little consequence. The country is barren and no serious damage will be done.

The Mississippi Valley road started out a patrol train which ran between Baton Rouge and New Orleans. There is a magnificent stretch of levee between these two points, which protects some of the most valuable sugar plantations in the state. Every effort is being made to hold it, and men and material have been distributed along it in abundance.

IS DEPLORABLE.

Hundreds of Memphis People Have Had to Vacate Their Homes.

Memphis, March 17.—The river is slowly falling here, the gauge registering 39.4 feet, against 39.7 Monday night. The break in the levee near Hollybush, twenty miles north of here, is responsible for the fall at Memphis. The crevasse is three-quarters of a mile wide and the water is rushing through with a roar that can be heard for miles. The whole of St. Francis basin will be flooded and incalculable damage done. No other breaks have been reported, but several weak spots are being watched by engineers. At Memphis the flood situation is growing more serious. In the northern part of the city hundreds of families have left their homes for high ground and every industry is shut down. Street car service has been abandoned. In South Memphis the water is threatening all railroad tracks and hundreds of laborers are working there.

Appeals are pouring into the city from all directions for aid by those who have taken refuge on high points along the river and who are now surrounded by water. All local packets have gone strictly into the rescue business, but their capacity is completely overtaxed and they are unable to respond to all demands that are received. Cargoes of refugees and their property have been discharged at the wharf here and there are several hundred destitute persons in the city who are being cared for by charity.

The Yazoo and Mississippi Valley railroad is the worst sufferer from the flood, the tracks being partly under water for miles. Through train service has been annulled. The Illinois Central has experienced some difficulty at Auction street, but the tracks have been "cribbed" and traffic is moving as usual.

Many appeals for help are coming in from flood sufferers, and the Sunshine society of this city has established a refugee camp, where all unfortunates are cared for.

SWEPT AWAY.

Three Miles of the Texas and Pacific Embankment Are Gone.

Natchez, Miss., March 17.—The waters of the river, which broke over the embankments of Bougere levee in lower Concordia parish, thirty-five miles below Vidalia, have swept away three miles of the fifteen foot embankment of the Texas and Pacific railway and the Southern portion of Bougere levee has caved in for over a mile.

A tremendous volume of water is pouring through this crevasse into the country behind it. Every effort is being made to prevent further caving, and additional forces are attempting to stake the ends of the broken levee with sacks of dirt and sand.

Syracuse levee, which affords protection for Vidalia, is being strengthened as rapidly as possible.

Situation Tuesday.

Washington, March 17.—At a reception given to Secretary of the Treasury Shaw by the business men of this city, the secretary made a brief speech in which he laid great stress on the necessity for inland harbors on the gulf coast. He also advocated liberal harbor appropriations and the great necessity for a ship subsidy to build up South American trade.

Desert Is Inundated.

Rock Springs, Wyo., March 17.—Red desert is inundated for miles east of Rock Springs, and the salt wells and drilling station is completely under water. Large quantities of supplies belonging to the Belgo American Drilling company have been ruined or swept away. Water backed up against the Union Pacific embankment to the depth of twenty feet.

Dr. North Appointed.

Washington, March 17.—The president has tendered the position of director of the census to S. N. D. North, formerly chief statistician of the manufacturers' census bureau, to succeed Director Merriam, resigned. Dr. North has accepted and will enter upon his duties some time in May.

Capt. Geo. W. Winter requests all members of the Bryan Light Guards to meet at the armory promptly at 7:30 o'clock tonight.

Lieutenant Colonel J. O. Newton of Milano, Second Texas, T. V. G., will be here for an official inspection of the Bryan Light Guards, (Co. G., Second Texas) April 8. Capt. Winter hopes to have the company in good shape by that time for the reason that continuance in the service and new guns and equipments are dependent upon the result of this inspection. Capt. Winter says he hopes the boys of the company will attend promptly and take proper interest in the work and that the business men who employ them will kindly let them off promptly for drill, and aid and encourage the organization as much as possible. The company is a great credit to the town and should have general co-operation and support.

Prof. Sanderson, who was here from College yesterday, said in reply to inquiry that his department would conduct boll weevil experiments this season at the College and on the Fountain and the Smith & Carson plantations in the Brazos bottom.

Like the work of the farmers this work has been greatly delayed by the long continued bad weather.

Prof. Carson is compiling a list of farmers of Brazos and surrounding counties with whom he expects to

correspond and hopes to have reports from them regarding the results of early planting and different kinds of seed and cultural methods.

Architect Flanders was here from Dallas yesterday looking over the work on the Methodist church, which is now completed. The altar furniture and seats for the Sunday school room have been placed, and workmen are now placing the seats in the church. Contractor Jenkins now has the building ready to turn over to Mr. Flanders, who returned to Dallas yesterday and will notify the committee of his decision regarding it.

Mr. R. H. Kirk and family left yesterday for Houston to make their home. Their many friends in Bryan regret their departure exceedingly, but all will unite with The Eagle in wishing them success in their new home.

Perfect fitters, exquisitely finished—our children's and misses slippers. We have received our spring line.

ANKENY SWORN IN.

A Number of Amendments Submitted by Democrats Voted Down.

Washington, March 17.—No legislation was transacted by the senate in open session Monday. Before the doors were closed Levi Ankeny of Washington was sworn in. Immediately after the senate met in executive session the order for the presentation of amendments with fifteen minute speeches on them went into effect. There was quite a large attendance of senators of both political parties, all having summoned their adherents in the senate to be present with the view of making the best possible showing in case of division on party lines. Consequently the roll calls of the day were well responded to and the vote cast was larger than had been expected.

The first vote was taken about forty minutes after the doors were closed and it came up on an amendment suggested by Senator Pettus providing that the treaty should not go into effect until it should be approved by congress. This amendment was voted

Election Ordinance.

Be it ordained by the City Council of the city of Bryan:

That an election for city offices, to-wit: Marshal, Secretary, and three members of the City Council, shall be held by the qualified voters of said city, at the city hall in Bryan, on the first Tuesday in April next, it being the 7th of said month, and the presiding officer, together with such others as he may appoint, shall hold said election in accordance with the city charter and ordinances and the state law governing elections.

Adopted by the City Council and approved by the Mayor, this the 28th day of February, 1903.

d73 R. H. Harrison,
C. M. Spell, S. B. C. Mayor.

TURNED CAR OVER.

Sleeper on the Monon Struck and Ten Passengers Injured.

Franford, Ind., March 17.—A southbound passenger train on the Monon railroad was in a wreck at Cyclone, a small town six miles south of here. The last sleeper on the train turned over and another sleeper and day coach were damaged, while the passengers were shaken up and ten of them received scalp wounds and bruises, but all were able to continue their way. Cyclone is the meeting point of the southbound and northbound night trains. The southbound train was the first to get to Cyclone and found a freight on the siding. The freight was so long that all the passenger train could not get on the siding, leaving half of it on the main track. A heavy fog prevailed and a brakeman from the passenger train was sent ahead to flag the northbound train. The brakeman carried a red lantern, but did not get the signal to the northbound crew, and the engineer, seeing the headlight at the freight train on the siding, mistook it for the passenger engine and started to run by. His engine struck the sleeper "Alabama" and turned it over on its side. One of the trucks of the sleeper "Nicosea" was knocked from under the car. The northbound engine was damaged.

Physicians looked after the ten wounded passengers.

SOUSED WITH WATER.

Attempt to Lay Track Results in Suspension of a West Virginia Mayor.

Parkersburg, W. Va., March 17.—The Baltimore and Ohio railroad, claiming the right under an ordinance adopted in 1852, brought a force of men into town before daylight and began to lay track for five blocks over one of the principal streets of the city. The police had been notified of their coming and had been instructed to call on the fire department if an attempt was made to lay track. The department responded and poured such a stream of water on the men that they abandoned the street.

A clash occurred between the mayor, who is attorney for the Baltimore and Ohio, and the city council. The mayor had directed the police and fire department not to interfere with the building of the track, but the council commanded his orders and the department stood with the council and citizens. Following the excitement the city council held a special meeting, at which impeachment proceedings were begun against Mayor Vandervert. He was suspended from office and injunction proceedings began in the circuit court. Calls were issued for men to protect the street from any further interference and hundreds responded.

RAILROAD MATTERS.

Frisco Tracklayers to Begin and Rouse Will Visit Frisco.

Guthrie, Okla., March 17.—The work of laying steel on the Frisco 125 mile extension from Tulsa, I. T., to Enid, Okla., will begin this week, and trains will be in operation on that line by July 9. This portion is a through line from New Orleans to Denver.

The citizens of Guthrie have been notified by President Rouse of the Katy road that he will visit this city between March 20 and 25, at which time it is to be determined by him whether the Katy will build southwest from Guthrie through El Reno into Texas.

Revolution Exists.

Madrid, March 17.—According to a dispatch to El Liberal from Coimbra, the Portuguese government has prohibited the sending out of news regarding rioting, but it is known tax collectors have fled and a veritable revolution exists. El Liberal adds that a state of siege was proclaimed at Coimbra four days ago and disturbances continue. Eight inhabitants, it says, were killed and a number of persons, including several soldiers, wounded.

ACTION TAKEN.

An Effort to Be Made to Set Aside the Grayson County Election.

Denison, Tex., March 17.—Adolphus Busch & Co. of St. Louis have filed an application for an injunction restraining Grayson county officials from putting into effect prohibition law. The application was filed before Judge Bryant, at Paris, and he declined to issue the restraining order on an ex parte hearing, but agreed to get any date that attorneys for plaintiff and the county judge of Grayson county would agree upon. Three constitutional grounds are set up. One is that the local option law is unconstitutional because it discriminates against physicians and denies a physician who has any other occupation from writing a prescription for alcohol or whisky. The second ground is that the law is unconstitutional because it does not permit an election to be held in subdivisions of counties after the county has gone prohibition, and does permit a subdivision to vote at once on the question after the county has gone against prohibition. The third ground is that the election was illegal because the judges of the election in Denison and Sherman required all voters to have city poll tax receipts, and alleges that these cities and towns have no legal right to assess a poll tax or to collect the same. There are seven other counts involving the illegality of the election.

FREE PASS BILL.

This Measure Was Discussed in House Without Final Action.

Austin, March 17.—The house of representatives spent all of Monday in considering Mr. Smith's bill to prohibit the giving of free passes to members of the legislature or other officers. The bill was reported adversely, but was laid before the house as a platform measure, it being one of the "recommendations" made by the Galveston convention. Speaker Neff, in giving preference to platform measures, indicated his unwillingness to have those measures go over for a special session.

Several amendments were offered to broaden the scope of the bill. Then Mr. Onion of San Antonio offered a substitute for the bill. It provided that the railroads should furnish passes to legislators, state and other officials. He said New York, Arkansas and Missouri had such a law. The features of the long debate that followed were the speeches of Mr. Onion in favor of his substitute; of Mr. Smith against the substitute, and in favor of the original bill; Mr. Duff, who spoke against the substitute and in favor of the bill, if any action was to be taken; of Mr. Robertson of Bell, who spoke in favor of the bill, and of Judge A. W. Terrell, who opposed both the bill and the substitute.

Onion substitute was defeated and bill went over.

WISH TO ANNEX.

Majority of Oak Cliff Voters Wish to Be Part of Dallas.

Dallas, March 17.—The election held at Oak Cliff Monday on the question of annexing to this city, resulted as follows: For, 201; against, 183; majority in favor, 18. After the result was known those in favor of annexation had a demonstration, during which an anvil was shot, band of music played and a bonfire was built. Speeches were also made. The antis will carry the matter before the legislature.

JACKSON DAY.

Several Democrats Spoke at Celebration of the Iroquois Club.

Chicago, March 17.—Prominent Democrats from every part of the country gathered Monday to attend the annual Jackson day banquet of the Iroquois club at the Auditorium hotel. Preceding the banquet many notables in the party held long talks together, discussing suggestions for the presidential campaign of next year.

The speakers at the banquet made strong plea for a unified party and the adoption of a platform that would meet the general approval.

Mayor Carter H. Harrison who was Monday renominated by the Democratic city convention was the first speaker. After welcoming the visitors to the city he responded to the toast: "The City of Chicago."

He was followed by Edward M. Shepard of New York, who spoke on "present duties of a patriotic opposition."

Jackson and the renewal of the bank charter, was the topic chosen by Judge Judson Harmon of Cincinnati, attorney general under the second Cleveland administration.

In responding to the toast, "Looking to 1904," Congressman David A. Dearmond of Missouri aroused the 300 banqueters to a high pitch of enthusiasm.

Telegrams of regret at their inability to be present were received from United States Senator Bailey of Texas and M. E. Ingalls, Democratic candidate for mayor of Cincinnati.

GOT OUT.

Four Men Make Their Escape by Sawing Their Cell Doors.

Atlanta, Ga., March 17.—A Jackson, Miss., special to the Journal says: Four prisoners confined in the city jail here made a sensational escape by sawing their cell bars. The men were George Thomas, John Burns, United States prisoners; J. E. Leland, an alleged burglar and W. F. McDonald, serving a sentence for bigamy.

It is said that the men were assisted by a mysterious woman dressed in black, who is said to have visited the jail last week. Leland had been confined on a charge of bigamy, and was thought to have been suspected of robbing the county treasury in Newton of over \$2000 last year. McDonald was under a sentence of 15 years for bigamy.
